

RAILWAY BUILT BY ROGERS'S MILLIONS

Standard Oil Magnate Obligated in Building Tidewater.

LARGE PORTION OF HIS FORTUNE

Wall Street Reports That He Has Spent Largely More, Sacrificing High-Class Securities to Meet His Obligations in This Project.

NEW YORK, September 19.—Reports have been current in Wall Street that H. H. Rogers, of the Standard Oil Company, had been a large investor in the Tidewater Railway project in Virginia, and that he had lost heavily by the investment. The Evening Post says today that it can be stated positively that Mr. Rogers incurred a personal obligation in the Tidewater project much in excess of \$10,000,000. The Post also says that the situation has been entirely cleared up.

The Evening Post said: "Confirmation was obtained in Wall Street today of reports to the effect that H. H. Rogers was heavily interested in the Tidewater Railway project.

"According to the stories previously circulated, upwards of 40 per cent. of Mr. Rogers's fortune had been involved in the Tidewater investment. It was reported today that the personal obligation incurred amounted to \$10,000,000. It can be stated positively that the sum is much larger than the amount named; also that the situation has been entirely cleared up.

"In order to clear the matter made upon him in connection with the construction of the railroad, Mr. Rogers was forced to dispose of a large amount of investment stock at a sacrifice. During the recent decline in prices, the vice-president of the Standard Oil Company sold gutted stocks, such as Standard Oil, Consolidated Gas, Union Pacific and St. Paul.

"Some five or six years ago, against the advice of his friends, Mr. Rogers started to build in West Virginia a low grade road, which would parallel the Norfolk and Western. His object was to carry coal and lumber to tidewater. The line was to be 413 miles long. Only 125 miles have been completed.

"Only a few months ago, in order to raise \$10,000,000 for the Tidewater Road, H. H. Rogers issued his personal notes secured by \$20,000,000 of mortgage bonds, \$10,000,000 stock and \$10,000,000 dividend or interest-paying collateral. These six per cent. notes were endorsed by H. H. Rogers personally.

"Railway officials who have watched the construction of the road with interest from the beginning, say that the project, even at this stage, is more or less problematical. It is confidently believed, however, that the sacrifice of high-priced securities Mr. Rogers is in a position to gain his end and see the mileage completed.

Buy Lumber and Coal Lands.
It was learned some months ago that the Standard Oil man and his associates had bought up all the available lumber and coal lands in West Virginia. These purchases amounted to thousands of acres, and will in the future supply the Tidewater Road with traffic.

W. N. Page is president of the Tidewater Railway. When completed, the road will extend from Deepwater, W. Va., on the Kanawha River, to Sewell's Point, near Norfolk, Va. The authorized stock is \$35,000,000. The first mortgage 5 per cent. bonds, none of which have been placed on the market, are issuable as follows: \$35,000,000 for the construction of the line from Deepwater to Sewell's Point, 413 miles single track; for each additional mile of single track on the main line, \$75,000 bonds may be issued; \$50,000 a mile for branch lines and \$50,000 for main line second track."

NEW YORK STORY IS NOT CREDITED

NORFOLK, VA., September 19.—Reports to the effect that Henry H. Rogers is in financial straits at the Virginia end of the construction of the Tidewater-Deepwater, are dismissed without credence in this city, where are located the general offices of the railway.

The condition of the railway enterprise justifies the discrediting of reports. While Mr. Rogers has spent \$10,000,000 and more, too, in the construction of the road, it is regarded as improbable that he has spent more than \$10,000,000 at this stage of the construction work. It will take other millions to complete it, but those millions are being spent.

The road will be 400 miles long, extending from Deepwater, W. Va., to Sewell's Point, at Norfolk, and according to a list of the road, a few miles of the road have been built. A train service was started over 125 miles of it at this end.

It is the common report among railway men in this part of the country that the road is being better built than is any road in the country now in operation.

Said a well-informed railroad official here today:

"There can be no truth in the reports about financial troubles of Henry H. Rogers and the Virginia Railway Work is being pushed on the road, and its construction is the best in the country. Nothing but the best and most skillful material and workmanship hold the rails to the ties to the locomotives, there is nothing cheap about it. The road is the best in the country, and the stations being built along the line are of the most serviceable and costly kind. Mr. Rogers knew how much the road was going to cost before he started to building, and it is unlikely that a shovelful of dirt would report signed before he knew where the money was coming from. I do not think that these reports would have been circulated if they were not for Mr. Rogers's present illness. Work is being pushed on the road from east to west."

COL. WITHERS IN EXTREMIS

Distinguished Veteran Grows Weaker and Death Is Expected.

WYTHEVILLE, VA., September 19.—Colonel Robert E. Withers, ex-United States Senator and formerly consul to Hong-Kong, is thought to be in extremis to-night. Although he passed through last night in comparative comfort, he has grown steadily weaker throughout the day, and it is feared to-night he cannot live until morning. Colonel Withers is one of the most distinguished men of Southwest Virginia. He was born at "Rock Castle," Campbell county, Va., September 18, 1821, and therefore celebrated his eighty-sixth birthday yesterday.

RAILROADS SCORE POINT

Injunction Against North Carolina Litigants Is Continued.

RALEIGH, N. C., September 19.—Judge Pritchard, United States circuit judge, today in the railroad matter of the Southern Railway against Lawyer Jacob A. Long, of Graham, N. C., and other attorneys in North Carolina, and their clients in Alabama and other counties, continued the injunction on the bill of complaint and the answer, restraining the respondents from prosecuting their penalty suits in the State superior courts against the North Carolina Railroad Company and the Southern Railway.

The North Carolina Railroad is the three-hundred-mile road owned by the State of North Carolina, and leased to the Southern Railway for ninety-nine years, and extends from Goldsboro by way of Raleigh and Greensboro, to Charlotte.

The matter was disposed of without argument, as Mr. Long was not present at the hour set. It is considered a most important decision.

NAMED FOR ARMY CHAPLAIN

Rev. Mr. Parker Not Fully Decided Whether He Will Accept.

(Special to The Times-Dispatch.) NORFOLK, VA., September 19.—Rev. W. G. Parker, chaplain of the Seventy-first Virginia Regiment, has been notified of his appointment as chaplain in the United States army, having stood the examination for the position last summer. He has thirty days in which to report for duty and will announce to his congregation at the Park View Methodist Church, Portsmouth, next Sunday whether or not he will accept the appointment.

He is quite undecided as to where he can do the most good as a minister of the gospel, and it is upon this point, he says, that his decision will be made.

BOTH MATTERS GO BY DEFAULT

Majority Vote for Better Roads and Library Support, but Not Enough.

(Special to The Times-Dispatch.) CHARLOTTE, N. C., September 19.—The proposed issue of \$300,000 in bonds to extend Mecklenburg's good roads, and the proposition to levy a tax of one and a half cents on the hundred dollars for the support of the Carnegie Library, which were voted on by citizens of Charlotte and Mecklenburg county today, both went by default. There were fair majorities for both measures in nearly every precinct, but the figures had to be put down as the total number of registered voters, and for lack of interest the propositions were defeated. There is considerable disappointment over the result.

FARMERS IN FATAL FEUD

Two Georgians Meet in Road and One Killed.

MACON, GA., September 19.—Elmer Orr, a farmer, thirty-five years old, was killed and killed while driving to his home over a road here yesterday, and Johnson Langston, another farmer, aged nineteen years, is in jail here, charged with the murder. It is said the men quarreled several months ago, when Orr threatened to kill Langston. They met on a narrow road yesterday, and in endeavoring to pass the wagons collided. A quarrel followed in which blows were exchanged. Langston then, it is said, attempted to use a shotgun, and in the struggle, in his possession, the weapon was discharged, fatally wounding Orr, who died shortly afterwards.

THIRTY DIE IN COLLISION

Disastrous Wreck Blocks Mexican Central Railway Line.

MEXICO CITY, September 19.—There has been a disastrous wreck of the Mexican Central Railroad. A freight train and a passenger train came into collision at Encarnacion, near the city of Aguas Calientes, and it is reported that thirty persons were killed and many injured. The passenger train was the regular El Paso express, which left that city Tuesday night. The freight train was a coal train from the United States and has come today over the Central, but one is expected to-night. It is impossible to get further details of the wreck at this moment. The railroad officials here admit that the wreck occurred, but refuse to talk of the matter.

LADY INJURED IN RUNAWAY

Mrs. Bywaters Thrown from Buggy on Farm Near Winchester.

(Special to The Times-Dispatch.) WINCHESTER, VA., September 19.—Mrs. Annie Bywaters, member of the United States and Canada is employed at Frederick county family, was seriously cut and bruised about the body today by being thrown violently from her buggy by a runaway horse on her farm. She was starting for a drive, when the horse dashed into a gatepost, hurling Mrs. Bywaters to the ground, inflicting serious injuries. A physician is in attendance.

EXODUS OF ENGLISH GIRLS

More Than One Thousand Sail for Liverpool, September 19.

LIVERPOOL, September 19.—The remarkable exodus of marriageable young women from this country to the United States and Canada is emphasized by the departure today of a thousand unmarried women, on the steamer Baltic alone, while several hundred more were among the total of 5,000 passengers carried on three transatlantic steamers which sailed today.

PRESIDENTIAL OFFICES NOW

Seven Virginia Towns Ruled Thereby.

WASHINGTON, D. C., September 19.—The following Virginia post-offices have been advanced from fourth-class to presidential offices, the figures indicating the salaries of the postmasters under the new order: Burkeville, \$1,100; Charlottesville, \$1,100; Elkton, \$1,100; Fairfax, \$1,100; Parkersburg, \$1,000; Scottsville, \$1,000; South Norfolk, \$1,000.

VISITING KNIGHTS ARE NOW IN CHARGE

Pittsburg Commandery, No. 1, Is Given Keys to City.

MAYOR MAKES WELCOME ADDRESS

Informal Reception at Jefferson and Cordial Exchanges of Gifts. Trolley Ride and Luncheon To-Day and Banquet To-Night—Leave To-Morrow.

Pittsburg Commandery, No. 1, Knights Templars, arrived in Richmond last night 150 strong, and will be the guests of St. Andrew's Commandery, No. 13, of this city, until tomorrow night, when they will leave over the Richmond, Fredericksburg and Potomac Railroad direct for home.

The commandery, which is a most distinguished organization, and which is noted for its extensive tours of the country, came South at the instance and upon the invitation of St. Andrew's Commandery, many of whose members have enjoyed the hospitality of their brethren in the "Smoky City." The party is composed of a number of distinguished men, their wives and lady guests, and their entry into Richmond was attended with much pomp and ceremony. They had spent almost a week on their way from home to Richmond, via Washington, including several days' stay at the Jamestown Exposition, and were met at Dutch Gap by a committee from St. Andrew's Commandery, who went down on the steam launch of Mr. W. B. Bradley. When the Pocahontas, on which the party came, was nearing the city the Howitzers fired a salute from Libby Hill in honor of the arrival of the distinguished guests.

JOHN H. NEIBAUM, Mayor of Richmond.

Mayor McCarthy was at the wharf with a huge gold key, which, on behalf of the city, he formally presented to the visiting knights. The knights, in turn, presented to the Mayor a gold key, which he accepted with a word of welcome. The Mayor then boarded street cars and went to the Jefferson Hotel, which is headquarters for the commandery, and after partaking of a light refreshment, he returned to the city. The knights, in turn, returned to the city. The Mayor then boarded street cars and went to the Jefferson Hotel, which is headquarters for the commandery, and after partaking of a light refreshment, he returned to the city. The knights, in turn, returned to the city.

MEMBER OF THE KNIGHTS.

Following these speeches there were ceremonies altogether of a friendly nature. Most of those present, Major William H. Sands, on behalf of St. Andrew's Commandery, in a brief, but eloquent speech presented to the visiting knights a handsome gold-handled sword and scabbard. Major Sands referred feelingly to the brotherly love that had long existed between the two commanderies, and when he had concluded his remarks, Grand Prelate Thomas N. Boyle, of the Grand Commandery of the State of Pennsylvania, and moderator of the Methodist Episcopal Church of that State, responded, receiving the beautiful gift on behalf of his people. Dr. Boyle's remarks were eloquent to a degree, and there was prolonged applause in greeting the sentiments expressed by both himself and Major Sands.

The next pleasant surprise came when Dr. Boyle turned on Major Sands and presented St. Andrew's Commandery with a handsome stand of colors, and the speeches in this connection were equally as happy and appropriate as had been the others.

One of the underlying principles of the Knights Templars is understood to be a steadfast devotion to the Christian religion, and when the party entered the Jefferson last night the orchestra

OFFICERS NAT'L INSURANCE COMMISSIONERS

B. F. CARROLL, Vice-President.

Secretary of War Choice of More Than Half Those Pollied.

PRESIDENT COMES SECOND

Noteworthy Demand for More Conservative Candidate Is Also Shown.

(Special to The Times-Dispatch.) CHICAGO, ILL., September 19.—The Chicago Tribune's "presidential ballot," which today included the Southern States, shows Secretary Taft in the lead as presidential choice. A surprising situation, however, is shown in the demand for a more conservative candidate as compared with President Roosevelt.

The States of Arkansas, Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas and Virginia cast a total of 607 ballots, and it is significant that of this total there were 58, or nearly 10 per cent. of the whole, which were distinctly recorded in opposition to the progressive policy of President Roosevelt.

The returns show that Taft is the first choice of 363 of the voters, followed by Roosevelt with 161, and Hughes with 43. Roosevelt received 146, 27, and 2, respectively, in the States of Virginia, North Carolina, and South Carolina. The returns show that Taft is the first choice of 363 of the voters, followed by Roosevelt with 161, and Hughes with 43. Roosevelt received 146, 27, and 2, respectively, in the States of Virginia, North Carolina, and South Carolina.

WILTSHIRE DID NOT VIOLATE STATUTES

City Attorney So Declares, But Thinks the Act Was Improper.

LOVENSTEIN GOT CITY HOME WOOD

Hobson Says Charles Gunst Palmed Off Worthless Stuff on the City—Forty-Five Cords Disappeared in Three Years.

Graft Development.

City Attorney holds that Connellman's contract to haul lumber from the city.

City Accountant shows loss of forty-five cords of wood at City Home in three years. Same official finds that Lovenstein hauled five cords of wood from City Home to his residence.

Charge by G. B. Hobson that Charles Gunst delivered wood on contract at \$5 a cord that public would not buy.

City Attorney Pollard's opinion, that member of the Council does not violate the Code of Virginia in accepting subcontracts from the city, was not the only development that came out in connection with the graft investigation yesterday. The Committee on Relief of the Poor had another session and received a report, prepared by City Accountant Crenshaw, which threw fresh light upon the wood scandal at the City Home. The showing did not reflect favorably upon the management of that institution, Dr. Williams and Graham B. Hobson objecting strenuously to a vote of commendation in view of the record.

Mr. Crenshaw's report showed that within the past two years five cords of wood had been hauled from the institution to the residence of Lovenstein, at that time assistant superintendent. Coming to the rescue of his former associate, Superintendent David Seal, the committee manager of that institution, Dr. Williams and Graham B. Hobson objecting strenuously to a vote of commendation in view of the record.

Mr. Crenshaw's report showed that within the past two years five cords of wood had been hauled from the institution to the residence of Lovenstein, at that time assistant superintendent. Coming to the rescue of his former associate, Superintendent David Seal, the committee manager of that institution, Dr. Williams and Graham B. Hobson objecting strenuously to a vote of commendation in view of the record.

Mr. Crenshaw's report showed that within the past two years five cords of wood had been hauled from the institution to the residence of Lovenstein, at that time assistant superintendent. Hobson objecting strenuously to a vote of commendation in view of the record.

Mr. Crenshaw's report showed that within the past two years five cords of wood had been hauled from the institution to the residence of Lovenstein, at that time assistant superintendent. Coming to the rescue of his former associate, Superintendent David Seal, the committee manager of that institution, Dr. Williams and Graham B. Hobson objecting strenuously to a vote of commendation in view of the record.
